They are all parked near the cottage on site.

> The 3 are:
> a One DTE owned Great Wall ute- with a fire fighting unit
> b One DTE owned Great Wall ute with an empty rear tray
> c One DTE owned white Ford Territory
> I understand DTE owns and pays for registration on some trailers.

>
See the attached recent photo of one of the DTE registered trailers.
It appears that if taken onto the bitumen road DTE would incur a fine as
the trailer would be deemed unfit for registration.
It is missing some lights.

> There are also many unregistered cars, vans, tractors, buses, trailers and
> trucks (including Fire Trucks) here on site.
> Additionally I understand:
> One DTE owned Holden Rodeo ute is in Melbourne
> One DTE owned Holden Rodeo ute is in Moulamein (currently unregistered)
> There is also a DTE owned Black Ford Territory
> There is also a DTE owned "Ambulance" Toyota? bus?
> I plan to attend "on line" for the 27th August 2020 OC meeting if I can be
