Greetings,As the OC liaison with NRAR, it is with great pleasure that I can report back to the OC that Tanya Eade-Smith arranged for two of her colleagues to visit site on Tuesday 27th October 2020 to carry out the inspection re compliance with the NRAR directives.We were told "verbally" that we had completely achieved the task to their complete satisfaction.A formal report will be forwarded to both the OC and the Board.

Moving forward the inspectors said we will need an intergrated license, I believe we will have more information on this when we receive our formal report.
Cheers Suzie♥
