Hi John

Please accept this as correspondence inwards for the OC.

I know there has been typical DTE distraction, smoke and mirrors with DTE minutes being moved and password protected but I feel the issue regarding meeting notices reliably being delivered is important to meet legal requirements.

Going forward to meet legal requirements I recommend notices are sent out by post unless.

- \* You can guarantee to the OC the members list you are using is accurate at the time of using it.
- \* You can guarantee to the OC that contact details are correct for those listed on the members list.
- \* You can guarantee to the OC that there are no issues with the dte.coop server and its settings with regards to email deliverability.

Can you provide these 3 guarantees to the OC?

Respectfully considering past dte.coop reliability I do not think you can.

--

Kind regards

Peter Tippett
