Hi John

Please accept this as correspondence inwards for the OC

FYI - This was sent to me by someone else earlier today...

-----

```
/The subject of the message is: Re: [Active2] Respect//  
//The date of the message is: Fri, 5 Feb 2021 20:46:26 +1100//  
////  
//The address to which the message has not yet been delivered is://  
////  
// ocmal@dte.coop//  
// Delay reason: LMTP error after RCPT TO:<ocmail@dte.coop>://  
// 451 4.3.0 <ocmail@dte.coop> Temporary internal error/
```

-----

Robin informed a meeting that there was an ocmal@dte.coop although the OC never asked for this to be set up.

Robin informed the meeting that mail sent to ocmal@dte.coop was forwarded on to ocmal@dte.org.au as well as other email addresses.

The concern here is not just reliability (a usual problem with all things related to the costly dte.coop experience) but also security. How can the OC guarantee that email sent to ocmal@dte.coop is not read by others when the OC does not know who those others are.

Email sent to ocmal@dte.coop could be read by a volunteers (s)ex stalker!

Not a very good place to be sending membership applications, activity forms, change of address notifications.....
