Dear Asset Management Facilitator and Asset Management Subcommittee,

The Organising Committee would like to do something about the containers which are sitting directly on the ground. At its meeting on Thursday 11 February, the OC passed a motion requesting the Asset Management and the Asset Manager present a plan to rectify this situation. Please provide this report and plan to [ocmail@dte.com.au](mailto:ocmail@dte.com.au) within 28 days.

The motion passed was "That the OC writes to the Asset Management Subcommittee and the Asset Management Facilitator requesting a report on containers which are currently sitting directly on the ground and a plan to rectify this and that if this report is not received within 28 days, the OC appoints another volunteer or group to take on this task."

Kind regards  
Kathy Ernst  
DTE member on behalf of the Organising Committee
