**Subject:** Great wall slip on fire equipment  
**Date:** Sun, 4 Apr 2021 18:11:07 +1000

---

Dear Directors and members

This is how the slip on fire equipment off one of the Great Wall's has been left for nearly two years , on the ground and in full sun .

This Easter break Andrew Wilkinson , Darrylle Ryan and myself have moved it behind Boris , next to the battery shed .

It is now on two sleepers raised off the ground 150 mm with space to walk around it and we have also tied a small tarp over the machinery area .
