Subject: New road signs on site !
Date: Fri, 9 Apr 2021 20:29:38 +1000

Dear Directors and members

As facilitators of Front Gate and Ticketing / Tom Robinson , Natalie Bull and myself's top priorities is the SAFETY of the volunteers , including their well being and nourishment .

Therefore to enhance the safety of the volunteers around the Front Gate , Welcome and Tony's Tip Gate I have installed a number of signs in preparation for our next possible gathering at Easter 2022 .

1. A third of the way between the second gate and the lean-to near the ticket office gate ,I have installed a large SHARED ZONE 40KM speed limit sign followed a little way after that by a red PREPARE TO STOP sign .

2. Near the ticket office gate where the new one way road starts , I've installed signs to direct the traffic left onto the new ONE WAY road with a SHARED ZONE 10 KM speed limit . (Market and volunteers will go right via the old way to bypass any traffic .)

3. After the road comes through the tree line at Box Creek and splits into two one way lanes - the left being for "stay put" and "camp with your vehicle" ; the right being for the car park and bus transport - there is the SHARED ZONE 8 KM speed limit. Kevin Elliott is making up a new sign to direct traffic left or right to go below this sign .

4. At Tony's tip Gate there is a new STOP SIGN with a reminder that this is still a SHARED ZONE 8 KM speed limit .

5. At the greengate there are now two NO ENTRY signs supporting the one way traffic system in the "camp with your vehicle" and "stay put" areas .

These signs are to project a safe , professional and well managed traffic management plan , supporting our application to the Council and other authorities for permits .

With love *Kevin* 0408 772 759
